**Detailed Description**

This is for bee keepers who have a lot of honey to take off. Using Honey Harvester you place the fume pad on top of the honey supers to be harvested and the bees leave depending on how fast the Harvester evaporates. The bees aren't upset and almost all of the bees locate the capped honey.

The screenshot shows the homepage of [brushymountainbeefarm.com](http://www.brushymountainbeefarm.com). The page has a yellow header with the company logo and navigation links. A large image of a beekeeper at work is on the left, and a product image of a 'Bee Brush' is on the right. A watermark with the text '14Civ1304 Decided 1/17/17 Cited in Fischer v Forrest Archived on 1/17/17 This document is protected by copyright. Further reproduction is prohibited without permission.' is diagonally across the page.
